

Offers are invited for the assets of the

RHIW VALLEY LIGHT RAILWAY

The **Rhiw Valley Light Railway** was conceived in the late 1960s by Jack Woodroffe.

An ex-professional musician who spent most of his working life in the retail musical instruments business, Jack was a great railway enthusiast and built many railways during his life in gauges ranging from OO to 15”.

The railway was always Jack Woodroffe’s passion and the current owner has been privileged to continue to develop and operate his legacy. Circumstances have led to the decision that the end of the journey has now been reached.

The attached asset list includes a summary of the equipment.

Further details and inspection of the assets can be arranged for genuinely interested parties.

All enquiries should be directed to:

Mike Woodroffe 07890 681270 mike.woodroffe@gmail.com

or
